FIRES DESTROY TWO STOCKS OF GOODS

Will Gibson's Store Was Burned Saturday night with Total Loss and M J Patterson's Store Suffers Loss this Morning.

The fire department was called out at 12 o'clock Saturday night to a fire in the Northeastern part of the city to a store the property of Will Gibson colored The fire was under good headway before it was reached by the firemen and the stock of goods was a total loss It is thought this fire was of incendiary origin

The store at Five Points belonging to M J Patterson was found to be on fire at three o'clock this morning and the entire stock of goods on the ground floor was destroyed Quick work by the firemen saved the entire building from loss It is thought this fire was caused by rats getting into matches in the rear of the store Insurance was carried on the stock and the loss will not be a total one

FREIGHT RATE DISCRIMINATION RETARD DOTHAN PROGRESS

By I G Biggers

I know absolutely nothing about freight rates and the elements that demand consideration when the traffic officials make up rates to certain points I don't suppose that I could know much about them should I give years of study to them

But I can read English and I know figures and when the railroads make the statement that to obtain rates from Ohio and Mississippi River crossings to Dothan Ala add the following arbitraries to rates to Bainbridge Ga Albany Ga Columbia Ala and Eufaula Ala Columbia I interpret it to mean that although Dothan is approximately the same distance say from Cairo Ill to the other points mentioned Dothan's rates are higher by the arbitraries added For instance to get the through rates from Cairo Ill and I take Cairo because it is at the junction of the Ohio and Mississippi Rivers we are told to add the following rates to the rate from Cairo to Columbia Ala 31 cents for 1st class etc and although Bainbridge Ga is fifty miles farther from Cairo than Dothan the through rates to Bainbridge are from 3c to 4c a 100 lbs lower than to Dothan In other words railroad companies can haul a hundred pounds of first class freight fifty miles farther for 4 cents less Where is the logic or justice in such a rate? Of course the railroads say that Bainbridge has a river and that they must meet river competition Is it right that Dothan should furnish the money to meet this competition

The volume of freight to Dothan doubtless is much greater than to Bainbridge and so much greater than Columbia that no comparison can be made Therefore the railroad companies should be willing to give Dothan credit for this greater amount and make the rates accordingly

Another instance of this unjust discrimination is seen in the fact that the rate on coal from Birmingham district to Dothan is $1 80 per ton to Panama City Fla 82 miles farther the rate is the same $1 60 per ton Of course the excuse of water competition comes in again but even the casual observer knows that practically all the coal that goes from the Birmingham district to Panama City passes through Dothan Therefore the railroad companies are willing to haul coal 82 miles for accommodation or they are overcharging Dothan the amount required to haul to Panama City Now railroad companies do not work for accommodation therefore they are overcharging Dothan

How does all that effect Dothan's progress? Most of our heavier commodities such as meat flour and grains come from the west and north of the Ohio The city in our section with lower freight rates than we have can undersell our merchants and thus control the trade Also industries using coal to make power having a lower coal rate can put their product on the market at less cost Therefore merchants and manufacturers naturally seek the more favored locations for their operations and Dothan suffers in the loss of new capital and people

What's the remedy Co-operative effort of the people of Dothan both in their demands on the railroads for justice and in fighting before the state and interstate commissions There is no other A single individual receives little attention at the hands of either the carriers or the commission We have in our midst a man who has had years of experience in traffic matters He is making his home among us He is interested Our people should get together raise money and put him on the job of adjusting our rates I believe that he would get results Shall we do it?

CAPT. R. P. HOBSON WAS HERE TODAY

Spoke to Large Crowd at Court House at 9 30—Made a Pleasing Impression on the Audience Left for Hartford and Geneva

Capt R P Hobson congressman from the sixth district candidate for United States Senator made a political speech this morning at the court house He arrived at nine thirty from Abbeville where he made a lecture last night

Captain Hobson made a temperance lecture at the Methodist church yesterday at eleven o'clock

He was introduced this morning in a most pleasing manner by Hon R G Farmer who spoke of Hobson as a national figure and a man of high character

From the time Hobson opened his address till the close he never once mentioned the name of his opponent Senator Johnston nor did he refer to him or his record in a slurring manner His speech was on a high plane advising the people that the methods of the old time politicians were out of step with the coming generation One could easily see the inference to be drawn He didn't pull the Lorimer record and in answer to the many attacks about being absent from congress he said he was willing to leave that to his district That was pulled on him during his last campaign but he was returned to congress by a great majority and said My district is ready for the boll weevil and is the only one in the state that got ready before he came

He showed that he had been doing things for his district and the people of his district were appreciative of his efforts along that line and that the complaints of his absence from congress were not from them but people who wished him to get off the political arena

From the cheerings heard in the crowd it was easy to see that they were in sympathy with Hobson's plans He didn't shirk questions but asked for them Said he was willing to stand by his record for a sufficient navy to command respect that he thought no one feared that negro women would vote if they read his bill and its conditions along that line putting the control in the hands of the state instead of the federal government

H. Y. Brooke, State Examiner, Thinks That Number Are Drawing Pensions Who Never Smelled Gunpowder, Unless It Was On The Side of the Enemy.

What do you think about 1,000 illegal pensioners in Alabama?

The old soldiers of Alabama, who have grumbled so much at the small pittance they are getting from the state as pensions, and always a short quarter and some times two, are being imposed upon by people who had their claims railroaded through according to Public Examiner Brooke

Here is the report that comes from Montgomery

Huge sums of money have been paid out to pensioners in Alabama who were not entitled to draw money from the state, according to preliminary reports of an examination of the pension rolls which have been filed with Governor O'Neal by H Y Brooke, Examiner of Public Accounts

In his investigations Examiner Brooke has discovered that there are a large number of persons drawing pensions in this state who deserted the Confederate Army, took the oath of allegiance to the Union and later fought in the Union army

"The pensioners have their records on file at the War Department at Washington, and it is from this record that Examiner Brooke is compiling his data.

It is believed that the number of pensioners illegally drawing money will amount to more than 1000 and that when the names of the illegal pensioners are purged from the rolls that the bona fide veterans may receive money for all four quarters of the year instead of three quarters as they do now

Examiner Brooke has filed reports on about six counties, but he will later go to all the counties in the state and compare the list he obtained at Washington with the county pension list

From this it would seem that some county officials have been derelict in their duty, and have striven to keep a political machine in good running order by railroading pension claims through for people who ought to be drawing from the Union army, or, who are not entitled to a pension at all

For some time it has been freely talked that there are many illegal pensioners in Houston county, and those old soldiers who really did see service for the confederate cause, are being imposed upon, for their pension money is divided up between a lot of people who are not entitled to it

Examiner Brooke hasn't got any better sense than to dig into things, and report his findings He has a nose for finding crooked things, and he makes his report so as to put them straight, and if he is given plenty of latitude in the search for illegal pensioners he will find where the trouble is, and the public will know about it

DOTHAN AND ABBEVILLE TO PLAY THREE GAMES

Dothan and Abbeville meet on the local grounds today, tomorrow and Wednesday in three games of baseball Abbeville's team has been strengthened and they are coming with the expectations of winning the series Of course Dothan doesn't think they will do that but it remains to be seen Barrow has been written to come, but he cannot reach the city in time for this series

These games promise to be good and everybody should turn out and holler for the boys.

It would [illegible] and see how much work [illegible] done in the [illegible] cold spell

Now that the cold [illegible] to be over [illegible] a [illegible] with [illegible] ment

The longer the campaign [illegible] more money it will take to [illegible] them and it doesn't look [illegible] the candidates would enter [illegible] so early [illegible] some fresh [illegible] might be entered on the [illegible] stretch

There is no lack of political issue. Probably there was an anti [illegible] candidate brought before the ark was finished but of course the records were lost and we shall never know what the result was nor if there was any merit in the issue

Charles W. Morse has an office in the financial district of New York and has control of the Hudson Navigation Company, a company that hasn't paid a dividend, it is said, in sixteen years. The owners know what a sick man could do with proper convalescent treatment and they are giving it a try out.

A man can behave in company so well that he will after a while acquire quite a reputation of being a model man, but if he has another set of manners to put on when he enters his own home, you can probably detect it from the way his children look at him

About fifteen or twenty years ago it was a common thing for white families to sell out and go from this section to Texas, or some other western state. Fortunately, most of them have been able to raise enough money to get back and they have made good citizens and [illegible] since their experience. Now it is a rare thing for one to leave this section to look for a location

[illegible] DON'T [illegible] DO IT.

A man by the name of Snound left Philadelphia two years [illegible] with $1,100,000 belonging to the Merchants Union Trust Co. Nothing much was heard of him. He made as clean a get away as [illegible] of this state. But he walked in the other day, and asked the company he had stolen the money from how much his bill was. They counted up the expense of searching for him which was $5,000, and he added that to the original sum, and paid it over. He was then declared not guilty and walked away a free man. He had been speculating in foreign countries and had made a fortune with the fortune he had stolen.

That one act will cost the people of the United States millions upon millions of dollars. Others will try to do the same thing.

[illegible] ENOUGH TO KILL THE WOMAN WHO PREPARE IT

A woman contributor to the current issue of Farm and Fireside tells how farm women overwork both because of the [illegible] that is forced upon them and the unnecessary work that they are foolish enough to assume. Under the head of the unnecessary work that farmers wives do come the [illegible] farm dinners that we all have [illegible] about with perhaps a certain feeling of envy. On this subject the writer says in part

I wonder if you have ever thought how much unnecessary drudgery many farm women go through in regard to cooking? Farm women sin far more grievously than do town women in this respect. I have sat down to country meals at which there were two kinds of meat, [illegible] [illegible] five different [illegible] varieties of pickle [illegible] butter, hot biscuit, three or more varieties of jelly or preserves, [illegible] kinds of cake, besides [illegible] tea and coffee. Such a great variety at one meal is worse than unnecessary. The important things to aim to see that the meal presents a balanced ration, that the amount of food is sufficient and that it is well cooked and served. The farmer has long been accustomed to giving his stock balanced ration but probably has never thought of the desirability of the same sort of thing for himself."

MAY [illegible] CHANCE [illegible] [illegible] JOHN [illegible] CHAMPION [illegible]

New York, Jan. [illegible] Armstrong Chaloner [illegible] member of the [illegible] will not comply with [illegible] tions set down by [illegible] man who was appointed [illegible] to Chaloner's person and property sixteen years ago when [illegible] millionaire was declared insane [illegible] the courts of New York. In [illegible] to a request by Chaloner's attorney that [illegible] [illegible] All [illegible] [illegible] in his own property [illegible] that Chaloner [illegible] the very name of New York [illegible] [illegible]

KNIFE AND A LEAD PENCIL

We have read magazine articles with no better heading than this and one time we read the story of a lead pencil. Don't remember to have seen much written about a knife. And when we say [illegible] we don't mean [illegible] but [illegible] a bread knife or a [illegible] knife, a meat [illegible] but just a pocket knife.

Had you ever thought about how many lies you are forced to tell during a life time about your knife or a lead pencil.

Personally we don't think [illegible] accountable for all the lies [illegible] about not having a pocket knife, a lead pencil when people [illegible] to loan them one or the other, probably both.

People are [illegible] into lying about the two [illegible] items. [illegible] people who [illegible] have a pocket knife or [illegible] pencil, are the cause of [illegible] fibbing. There are enough of [illegible] of people who never think to return either. [illegible] why they [illegible] put them in their pockets and walk away is never [illegible] they don't do it from [illegible] habit. They don't carry [illegible] in that habit.

We loaned a man [illegible] pocket knife once and [illegible] umbrella with [illegible] the blade till it looked like a cross cut saw. He didn't think [illegible] hurt it. He was not accustomed to the use of a knife [illegible] one at the [illegible]

And [illegible] the [illegible] women [illegible] of the boys and girls who want just a minute [illegible] question and [illegible] jack

Lead pencils [illegible] [illegible] tired [illegible] pencil [illegible] two or three months [illegible] ten dollars [illegible] pocketed with the unconcern [illegible] are, without as much [illegible] thank you.

A boy who doesn't acquire the habit of keeping a lead pencil and a pocket knife is [illegible] may take to worse things. He should be watched. They are essential. If the habit is formed early it may [illegible] out of a boy. He shouldn't be forced in the life [illegible] in order to keep from lending them to people who don't know for what purpose they are intended.

The man who uses a knife when he should have a cold chisel or a pair of pliers will bite his finger nails or use the scissors on them if [illegible] a woman [illegible] never have one [illegible] enough to trim them.

And if people wore [illegible] muzzles lending a pencil would be a pleasure instead of a sanitary risk. Or if the lead was made of some bitter stuff or deadly poison fewer people would dip the pencil to the tongue while digging for just the right word.

Beware of Ointments for Catarrh That Contain Mercury
as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure manufactured by F J Cheney & Co, Toledo O contains no mercury, and is taken internally acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo Ohio by F J Cheney & Co. Testimonials free

AMSTERDAM—PARIS

Industry and economy ... wonders. Of this the Dutch ... and their land the Netherlands ... a striking illustration. The word Netherlands means ... land" and Holland is so called because most of its territory has been won over from the sea. Once all this area was a projection of the sea with many small islands ... tered over it. Then dikes were built or dams to keep back the sea and thus the swamps ... were turned into fertile fields.

The city of Amsterdam is built on ninety small islands and lies below the sea level. It is cut up by many canals along which boats convey freight from one portion of the city to another just as drays do in our cities. There are 300 drawbridges which span these canals ...

... smokes at the next ...

Leaving Amsterdam ... The French ... people ... mentation and have ... indomitable in their effort ... the most beautiful ... world. One of each ... is the center of all nations. Paris is the center of France and the Italian Boulevard ... the center of Paris. Indeed its boulevards ... the parks and public buildings ... the great central square ... with its tall obelisk ... of the French republic ... come as the most beautiful ... in Europe. At night when ... lamps gleam from the ... posts on this square the sight is indeed beautiful.

To me the most interesting ... was Napoleon's tomb ... the monarch ... of streets ... monument to Napoleon ...

But the chief glory of all is the tomb in the church of St. Louis right under the dome. It will be remembered that Napoleon died on the island of St. Helena as a British prisoner and that in 1840 his bones were taken from that island and brought to France ... assembled on that occasion ... the fulfillment of Napoleon's ... made the following request ... desire that my remains shall rest on the banks of the Seine in the midst of the French people ...

USE OF CALOMEL PRACTICALLY STOPPED

For Billious Attacks, Constipation and all Liver Troubles Dangerous Calomel Gives Way to Dodson's Liver Tone

Every druggist in the state has noticed a great falling off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

Calomel is often dangerous ... people know it while Dodson's Liver Tone is perfectly safe and gives better results, said W. E. Brown.

Dodson's Liver Tone is personally guaranteed by W. E. Brown who sells it. A large bottle costs 50 ... and if it fails to give easy relief in every case of sluggishness you have only to ask for your money back. It will be promptly returned.

Dodson's Liver Tone is a pleasant tasting purely vegetable remedy harmless to both children and adults. A bottle in the house may save you a day's work or keep your children from missing school. Keep your liver working and your liver will not keep you from working.

Perfection.

Will never be attained on this earth, but we believe that you will congratulate us when we tell you that over nine hundred customers were handled by us in a given period of three hours on the first day of our Dissolution Sale.

To be exact—a disenterested person counted the customers entering our store for three hours Wednesday morning and there were over nine hundred by actual count in this space of time.

Just think what this means. An institution in Dothan bringing hundreds and hundreds of people from nearly every town in South-east Ala., South-west Ga. and the greater part of west Fla.

There is no business in Dothan that is not benefitted by our institution. We give employment to twenty odd people regularly, and to thirty odd during special sales of this kind. Every special Clearance Sale held by our store has surpassed any previous sale in point of crowd and amount sold.

Our Dissolution Sale coupled with our usual clearance sale is smashing all records.

The actual gain in sales over first four days of our June Clearance Sale 1912, $2,428.64. This is the gain in sales, not money taken in collections or other sources.

The writer, too, never makes any statement in the paper that will not be sworn to or verified in any other manner.

We expect to make a clean sweep of all old goods—all spring and summer goods, for its our policy to start each season with the freshest and most dependable merchandise gathered from the world's best marts.

Hundreds of items never advertised by us are being offered each day, among them—

No 290—36 in white shirt waist linen, worth in any other store 35 cents, Sale Price 18c

FRIENDSHIP

This is the friendship I would choose
Hard to win and hard to loose
Slow to seek a question
Quick to find an explanation
Smouldering in its early days
Growing like a forest blaze
Through the seasons bravel liing
Never asking ever giving
Hearing tr itors that desert you
H ring nothing meant to hurt you
W t hing all your faults to catch them
Finding faults of his to match them
Staying till the journey's end

In your hand you hold a five-cent piece.

Right at the grocer's hand is a moisture-proof package of Uneeda Biscuit. He hands you the package—you hand him the coin. A trifling transaction?

No! A remarkable one—for you have spent the smallest sum that will buy a package of good food; and the grocer has sold you the most nutritious food made from flour—as clean and crisp and delicious as it was when it came from the oven.
